Feeding Children Everywhere is dedicated to the vision of a hunger-free world. Through unique partnerships and innovative distribution programs, families across the world receive nutrition and meals necessary for a healthy lifestyle.

Feeding Children Everywhere (FCE) provides nutritious food to people in need. Given uncertainty around COVID-19, our goal is to continue our service and respond to additional needs when possible.

That is why FCE has decided to solely distribute meals through our online domestic distribution program, Full Cart. Until further notification, all meals will be delivered directly to families in need, ensuring that the families we serve, continue to receive the food they need in the safest way possible.

More than 65% of families* don’t have enough in their bank accounts to make it through the month. This makes the effects of COVID-19 even more impactful within our priority populations. We will notify our partners when we plan to resume on-site Hunger Projects.
